

Wholly Pizza is an authentic New York style pizza. Our thin based pizzas are hand tossed before being spread with traditional toppings and baked directly on the oven stones.

Size is everything in the “Big Apple”, and our pizzas are the traditional 20 inch size New Yorkers love. For those with smaller appetites, we also have a Kiwi size 14inch pizza.

Authentic pizza makers in New York stuck to the simple toppings of a red pizza sauce and mozzarella cheese. Like them, we will never overload our pizzas with every topping known to man. Instead, Wholly Pizzas come as many simple and delicious flavours, you can even make up your own from our design-a-pizza menu. You will, however, never find pineapple on our pizzas.

We believe our pizzas are best consumed in our stores, hot out of the oven. They are perfect for a quick family meal or to share with friends. You can take them away if you want to but you’ll need to watch your knuckles on the door frame if you order a 20” to go.
